

ITIL[®] Service Transition Lifecycle

Certificate: ITIL[®] Service Transition Lifecycle

Duration: 3 days

Course Delivery: (Virtual) Classroom, Exam

Course ID: ITL9337

Language: English

Credits: 3 Credits to ITIL expert

PMI[®] PDUs: 24

Course Description:

This 3-day course immerses learners in the overall concepts, processes, policies and methods associated with the Service Transition phase of the Service Lifecycle. The course covers the management and control of the activities and techniques within the Service Transition stage, but not the detail of each of the supporting processes. This course is designed using an engaging scenario-based approach to learning the core disciplines of the ITIL best practice and positions the student to successfully complete the associated exam.

Audience:

The Service Transition Lifecycle course will be of interest to:

- Individuals who have their ITIL Foundation Certificate who want to pursue the intermediate and advanced level ITIL certifications.
- Individuals who require understanding of the ITIL Service Transition phase of the ITIL core lifecycle and how it may be implemented to enhance the quality of IT service provision within an organization.
- IT professionals working in or new to a Service Transition environment and requiring a detailed understanding of the concepts, processes, functions and activities involved.
- Individuals seeking the ITIL Expert certification in IT Service Management for which this qualification is one of the prerequisite modules
- Individuals seeking progress towards the ITIL Master in IT Service Management for which the ITIL Expert is a prerequisite
- A typical role includes (but is not restricted to): CIOs, CTOs, managers, supervisory staff, team leaders, designers, architects, planners, IT consultants, IT audit managers, IT security managers, service test managers and ITSM trainers.

Learning Objectives:

At the end of this course, the learner will gain competencies in:

- Understanding Service Management as a Practice and Service Transition principles, purpose and objective
- Understanding how all Service Transition processes interact with other Service Lifecycle processes
- The subprocesses, activities, methods and functions used in each of the Service Transition processes
- The roles and responsibilities within Service Transition and the activities and functions to achieve operational excellence
- How to measure Service Transition performance
