

Course Introduction

Led by an (ISC)² authorized instructor, this training seminar provides a comprehensive review of information security concepts and industry best practices, covering the 8 domains of the CISSP CBK.

Several types of activities are used throughout the course to reinforce topics and increase knowledge retention. These activities include open ended questions from the instructor to the students, matching and poll questions, group activities, open/closed questions, and group discussions. This interactive learning technique is based on sound adult learning theories.

This training course will help candidates review and refresh their information security knowledge and help identify areas they need to study for the CISSP exam and features.
